

## BALL JOINT SEPERATOR

Ball Joint Separator is used for separating the ball joint from the spindle support arm on domestic and import front wheel drive vehicles. Our ball joint separator tools are (by far) the easiest means possible for removing ball joints. This tool lets you replace old ball joints (even top-of-the-line ball joints) at a fraction of the cost, if you're able to do the job on your own.

Adjustable for Different Size Ball Joints Max. Opening Range: 1-1/8" to 2-1/8" Steel Construction with Black Oxide Pins Comes in a Sturdy Blow Mold Case Fork Opening Measures 7/8"

Inner Pack 1

Case Pack 10
