

TORQUE WRENCH 3/8" 40-250 IN/LB

3/8-inch Drive Click Torque Wrench is calibrated one by one within +/- 4% accuracy, precisely suitable for cars, trucks, and lawn and garden equipment. Adjustable torque is between 40-250 in-lb. When the preset torque value is reached, a click will alert you to stop applying force. You can confidently tighten fasteners to a equipment manufacturer's torque specifications, preventing stressed, broken, poorly secured parts
